BISON

HAMMER MILL MMRB & MMIB SERIES

BISON Hammer Mills are designed to maximize the nutritional value of feed.

Built with durable, heavy-gauge materials, Bison Hammer Mills deliver top-quality processed grain with minimum maintenance and low operating costs.

Used for efficient grinding process of diverse products.

A Bison Hammer Mill with 90 hammers and heavy chassis tow does the job quickly and economically.

The hammers are made from high quality carbon steel for extra-long life. Variety sizes on sieves according to the mills necessities.

The sliding feed gate controls the amount of grain entering the mill.

This equipment has a security stickers for better functionality and accident prevention.

Variety sizes on sieves according to the mills necessities.

Counts with security guard in its pulleys and greasers for better lubrication. Includes driveshaft to take power from tractor.

SPECIFICATIONS		MMRB20	MMIB20
