The latest branch of All Certified Equipment Trading Corporation (ACETC) in Koronadal City expands the company's reach in Mindanao.

ACETC OPENS 13TH BRANCH IN KORONODAL CITY

Entering its 12th year of operations, farm machine company All Certified Equipment Trading Corporation (ACETC) opened in January 26, 2022 its 13th branch located in Koronadal City in South Cotabato.

Engineer Joel Cabacongan, manager of the ACETC Koronadal City branch, said the opening of the company's 13th branch will allow it to serve more clients in Mindanao while improving on its after-sales service and spare parts availability there. The Koronadal branch is located at Door 10 & 11 Sayland Bldg., Gensan Drive, Zone III, Koronadal City.

The Koronadal branch will offer all the products ACETC currently carries, and will commit to deliver quality after-sales and spare parts to its clients in Mindanao.

"The opening of ACETC's 13th branch is also a commitment from us to improving our services to our present and future clients by offering them agricultural equipment supplied by respected international and regional brands," Engr. Cabacongan said,

"Also, ACETC can ensure better delivery of after-sales and spare parts to more clients in Mindanao,

particularly in SOCCSKSARGEN, with the opening of the Koronadal branch," he added.

SOCCSKSARGEN or Region 12 is made up of the provinces of South Cotabato, Cotabato, Sarangani and Sultan Kudarat.

With the opening of the Koronadal branch, ACETC now has three branches in Mindanao. The other two are located at Zone 5, Tin-ao, Agusan, Cagayan De Oro City; and ACETC Bldg., Km. 7, Mc. Arthur Hi-way, Bangkal, Davao City.

The other branches of ACETC are located at: 905 PhilAm Homes, along EDSA, Quezon City; Minante 1, Maharlika Highway, Cauayan City, Isabela; No. 365 Urieta St., Brgy. Buenavista, Sablayan, Occidental Mindoro; Ground Floor ZDB Building, Mc. Arthur Drive, TagbakJaro, Iloilo City; and Espinos Village 2, Circumferential Rd., Brgy. Taculing, Bacolod City.

All ACETC branches can be reached via email info@allcertifiedequipment.com.

Potential of SOCCSKSARGEN

Cabacongan said the Koronadal branch also shows the commitment of ACETC to help SOCCSKSARGEN realize the full potential of its agriculture sector.

According to a report from the National Economic and Development Authority on SOCCSKSARGEN,

From left: ACETC Davao Branch Manager Jojo Oria, ACETC Koronadal Branch Manager Joel Cabacongan and ACETC Vice President and General Manager Bhong Amoroso lead the ribbon-cutting ceremony for the Koronadal branch.

the region is one of the leading producers of major crops in the Philippines.

"The region is among the country's leading producers of palay and corn. It is the top producer of high value crops like coffee, banana, pineapple,

The staff of the Koronadal City branch in high spirits.

Koronadal City is located in SOCCSKSARGEN that is a major producer of various agricultural products like rice, corn, coconut, coffee, banana, mango, durian and African palm. Photo shows the bustling Koronadal City Hall.

and, oil palm. It leads in livestock inventory and it is the tuna capital of the Philippines as it hosts 80 percent of the tuna industry in the country," the report said.

The Department of Trade and Industry (DTI) is also promoting coffee production in SOCCSKSARGEN to bolster its position as the top producer of the commodity in Mindanao. Also, the DTI is encouraging cassava planting and processing in SOCCSKSARGEN.

"Looking at the current status of SOCCSKSARGEN's agriculture sector, it has vast potentials to become a major driver of economic growth in the region. With that in mind, ACETC is ready to provide food producers in SOCCSKSARGEN with the most up-to-date equipment to improve their production," Engr. Cabacongan said.

Targeted crops

Engr. Cabacongan said that ACETC can offer solutions for the major farm commodities in SOCCSKSARGEN. For palay and corn production, the company offers appropriate Massey Ferguson four-wheel tractors and attachments for soil preparation.

When it comes to drying grains, ACETC offers the proven GT Mobile Fast Dryers from the United States.

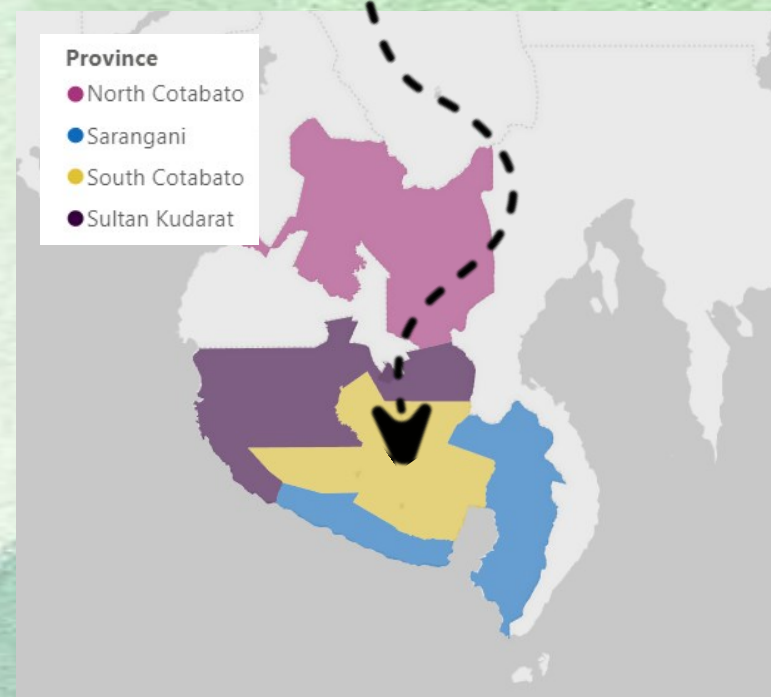

For efficiently irrigating cash crops, the company has excellent solutions from Rain Bird that has been in the business since 1935.

The company also offers engines for agricultural applications from Yanmar, Kaiao and Platinum.

And with SOCCSKSARGEN being the tuna capital of the Philippines, ACETC is ready to offer its Ice Green cold storage solutions, which can also be used as a post-harvest solution for other commodities in the region.

"We are confident that ACETC can offer a wide range of solutions for farmers, fishers and agribusiness companies in SOCCSKSARGEN and the whole of Mindanao," Engr. Cabacongan said.

All Certified Equipment Trading Corporation has under its wings at least 26 international and regional brands of various farm equipment. The other brands and products distributed by the company include ATISCO, Berti, Bison, CMT, KK, Max, Kuhn and SiP farm implements; Tajima 3-in-1 knapsack sprayer; and Mitas and Trelleborg tires for agricultural application.

ACETC TO EXPAND DISTRIBUTION OF ICE GREEN COLD STORAGE SYSTEMS

ALL CERTIFIED EQUIPMENT TRADING CORPORATION

All Certified Equipment Trading Corporation (ACETC) will expand the nationwide distribution of Ice Green Cold Storage Systems after getting positive feedback from its initial batch of users.

ACETC Marketing Manager Mark C. Careng said that since it was launched in 2021 amid the height of the Covid-19 pandemic, a total of 23 units of Ice Green Cold Storage Systems were sold nationwide.

“We already have gotten feedback from the initial users of Ice Green Cold Storage Systems and these are very encouraging. Among the positive feedback is Ice Green Cold Storage Systems do not cause frozen damage or dehydration of food products,” Mr. Careng said.

“Also, ACETC can readily provide the generators for Ice Green Cold Storage Systems if clients want

The Davao Food Terminal Complex has joined the growing list of clients for Ice Green Cold Storage Systems.

a back-up power system or cold storage with its own power,” Mr. Careng added.

ACETC currently has 12 branches nationwide strategically located in Luzon, Visayas and Mindanao, which will allow the company to distribute and service a bigger number of Ice Green Cold Storage Systems in various parts of the Philippines.

The company introduced Ice Green Cold Storage Systems in the Philippines realizing that post-harvest food losses are still high in the country because of lack of cold storage systems.

Like all products ACETC distributes, Ice Green Cold Storage Systems were carefully studied by the company for the Philippine market where extreme heat and heavy rains are common. The company also took into account the ease of operations, choosing Ice Green Cold Storage Systems as these are “plug and play” equipment.

Ice Green Cold Storage Systems are 'plug and play' and can be easily installed.

Ice Green Cold Storage Systems are also transportable and have low power consumption.

Two models of the Ice Green Cold Storage Systems are currently offered: 40-footer and 20-footer.

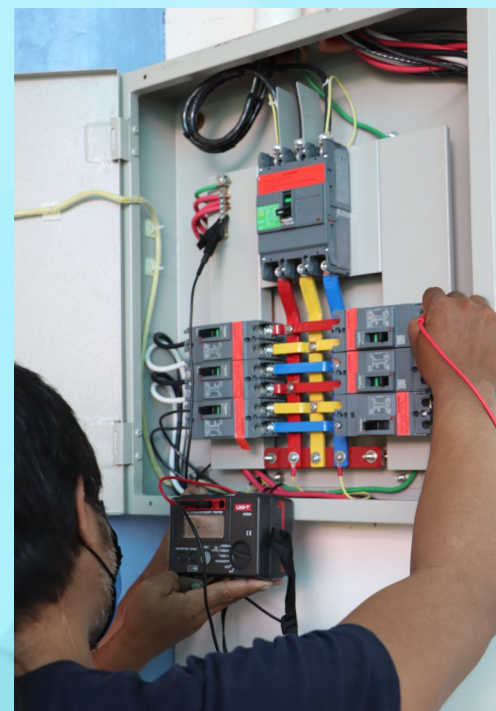

The 40-footer model has a dimension of 12.8 meters (m) x 2.44 m x 2.9 m and has a 3-hp compressor. Input power is 220 volts and can provide a cooling temperature of below 25 degrees Centigrade. It has a gross weight of 34,000 kilograms and a storage capacity of 67.5 square meters.

The 20-footer model has a dimension of 6 m x 2.44 m x 2.59 m and has a 2-hp compressor. Input power is 220 volts and can provide a cooling temperature of below 25 degrees Centigrade. It has a gross weight of 30,480 kilograms and a storage capacity of 28.8 square meters.

ACETC also backs Ice Green Cold Storage Systems with a high level of after-sales service and spare parts.

ACETC assures its clients for the on-site installation support and after-sales for Ice Green Cold Storage Systems.

WHY TRUST THE WORLD LEADER

EFFICIENT FEEDING SOLUTIONS

The KUHN EFFICIENT FEEDING system provides all the guarantees of a world leader in mixed ration solutions. All KUHN TMR mixers (trailed wagons, self-propelled, free-standing or robotic machines) can handle the most difficult situations in terms of working conditions and fodder diversity. Our TMR mixer wagons meet all applicable nutritional standards and have been proven through further successful testing in different continents. Our feeding solutions are also designed to meet all building, tractor and loader requirements. We provide data management systems for farms committed to high standards of traceability. We provide numerous services such as EFFICIENT FEEDING FEED to provide the advice you need to optimise your investment, whether you are a first-time buyer or upgrading your machine.

ACETC PARTICIPATES IN 2023 WORLDBEX EVENT

ACETC took part in WORLDBEX Legacy Continues held at the World Trade Center in Pasay City from March 16 to 1, 2023 as part of the company's efforts to widen its market reach.

All Certified Equipment Trading Corporation (ACETC) participated in the WORLDBEX Legacy Continues held at the World Trade Center in Pasay City from March 16 to 1, 2023.

The company's participation in the WORLDBEX event allowed contractors and building owners to know what products from the company that they can use in their operations, like four-wheel tractors for building and maintaining lawns, and advanced irrigation systems for large gardens and lawns.

ACETC branch managers from Luzon also joined the WORLDBEX event.

"ACETC has products that can be used in the urban areas by both building contractors and owners of buildings themselves. And our line of generator sets from respected brands can also be used by commercial establishments," a marketing official of ACETC said.

The company showcased the Massey Ferguson 1540, Yanmar and Kaiao diesel engines, Rain Bird advanced irrigation systems, Mitas tires, among others, in its booth during the trade show.

The Massey Ferguson 1540 that went on display at the latest WORLDBEX event has urban applications.

"While the Massey Ferguson 1540 farm tractor is becoming popular among farmers in the countryside, those operating large gardens and lawns in the urban areas can utilize it to maintain their greeneries. And we guarantee that Massey Ferguson farm tractors to give many years of service given proper maintenance," the ACETC marketing official said.

ACETC is the exclusive distributor of Massey Ferguson farm tractors in the Philippines.

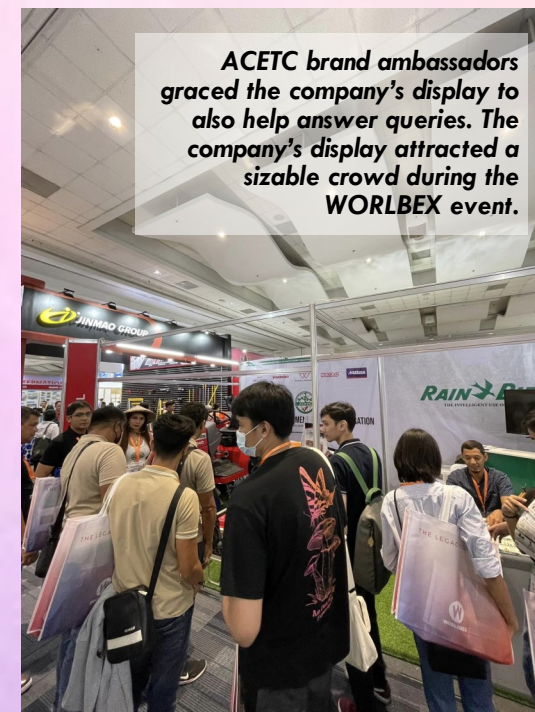

ACETC will participate in select trade exhibitions or events in Metro Manila in the future to increase awareness for the company's products, particularly those that have urban applications. However, that those who own farms or operate agribusiness companies must also visit the company's booths in future trade shows and inquire about the other brands and products ACETC carries for modernizing agricultural operations.

"ACETC has numerous farm modernization technologies sourced from respected global and regional brands that we carefully evaluated before

introducing them to the Philippines," the ACETC marketing official said.

This is the second time ACETC participated in a WORLDBEX event. From August 31, 2022 to September 3, 2022, the company participated in the WORLDBEX construction and design industry trade event held at the World Trade Center Manila and SMX Convention Center in Pasay City.

ACETC will participate in the next major trade shows with its branch managers expected to attend.

ACETC brand ambassadors graced the company's display to also help answer queries. The company's display attracted a sizable crowd during the WORLDBEX event.

ACETC ASSURES QUALITY OF TRELLEBORG, MITAS TIRES

All Certified Equipment Trading Corp. (ACETC) assures the high quality of Trelleborg and Mitas tires the company currently distributes in the Philippines as part of the spare parts offered for farm tractors.

“The inclusion of Trelleborg as one of ACETC’s spare parts providers was founded on our philosophy to give our present and would-be clients only the best in after-sales and spare parts, so they can use their farm machines for many years,” said ACETC Marketing Manager Mark Careng. Mitas is a brand under Trelleborg.

Proof of Trelleborg being a respected global brand is the award it got on Nov. 6, 2022, or the bronze medal at the SIMA Innovation Awards for its Adaptive Tire Management System (ATMS) that “acquires real-time tire data for ultimate tractor performance through its sensors, mounted on a tire integrated support.” Last year’s SIMA event was held in Paris from Nov. 6 to 10.

For his part, Gianluca Abbati, Vice President Technology & Innovation at Trelleborg Wheel Systems, said it is the aim of his company to provide farmers with the best possible solutions so they can attain a higher level of efficiency.

“We work hard to make sure farmers can produce more while using fewer resources. That means leveraging new technologies where they need it

By offering Trelleborg and Mitas tires, ACETC demonstrates that it intends to maintain its leadership in providing its clients and future customers quality spare parts. ACETC’s 13 branches nationwide also assure the delivery of quality spare parts like Trelleborg and Mitas tires.

most,” he said in a statement posted in the Trelleborg website.

ACETC highly recommends Trelleborg and Mitas farm and forestry tires for its clients owning Massey Ferguson farm tractors, and other tractor brands.

“Trelleborg and Mitas tires are designed and manufactured to deal with tough field conditions, including those in tropical climates. And ACETC shares the aim of the Trelleborg company to provide the best for farmers as farm tractors are one of the biggest investments they make,” Careng said.

ACETC also offers Trelleborg rubber tracks for the Massey Ferguson 2168 combine harvester.

Trelleborg Wheel Systems is based in the United Kingdom and founded in 1985. It is unit under

Trelleborg AB based in Sweden founded 117 years ago or in 1905. “Trelleborg Wheel Systems is a leading global supplier of tires and complete wheels for agricultural and forestry machines, material handling, construction vehicles, motorcycles and other specialty segments,” according to its website.

In 2016, Mitas became part of Trelleborg.

ACETC also carries quality spare parts from AGCO and Sparex for Massey Ferguson farm tractors and the 2168 combine harvester.
